TEAPAC Supports School Choice and Pension Reform in 2018

TEAPAC will be working with other organizations to qualify School Choice and Pension Reform initiatives for the California statewide ballot in November, 2018. Over the past year, some of the featured speakers at our monthly Breakfast Forum have included experts in public education. They all agree that the only solution to the problems in public education is real competition, which can only be achieved through a strong School Choice statewide initiative.

Who Should Attend?

School Choice is about children. It has nothing to do with national or partisan politics. Everyone knows that the problems with public education are most acute in the black and Latino communities. We are reaching out to all concerned citizens, especially the leaders in the communities most negatively affected by Big Government schools and the public employee unions. Come meet Jesse and hear what he has to say . . . and bring a friend!
